8/24/68

Dear Bill,

Hurried thanks for your letter of 8/20 with two pix.

You are right and I also missed it. I will write a man working on that pair of pictures.

May I caution you on the testimony that Jackie had JFK's head in her lap? It never happened. Look at pictures of her skirt. No blood. The blood is on her stockings, mostly, and across the back of the seat.

Keep up the good work.

Best regards,
